

INSPECTORS GRAB STOWAWAY CHINKS ON SHIP

CHINESE WERE HID IN EVERY CONCEIVABLE PLACE ON STEAMER

San Francisco, Oct. 29.—United States immigration inspectors raided the Pacific mail steamer *Montana* and captured 25 Chinese stowaways, who arrived aboard the steamer from the Orient on its last trans-Pacific voyage. The raiders crawled into every nook on the ship and dragged struggling orientals from a great steel basket buried in the coal bunkers, from beneath benches in the dining room, from the banks of the Chinese crew and out of hiding places in the stowage.

The "chinks" will be returned from whence they came. The ship owners will also be prosecuted under the immigration law that prohibits the landing of Chinese of a certain class.

When Baby Has the Croup.
When a mother is awakened from sound sleep to find her child who has been to bed apparently in the best of health struggling for breath, she is naturally alarmed. Yet if she can keep her presence of mind and give Chamberlain's Cough Remedy every ten minutes until vomiting is produced, relief will follow and the child will drop to sleep to awaken in the morning as well as ever. This remedy has been in use for many years with uniform success. Obtainable everywhere.

OIL FIELDS ARE CLOSED BY STATE COMMISSIONERS

THOUSAND MEN THROWN OUT OF WORK IN HEALTH-TON FIELD

Apache, Oct. 29.—Five of the large producing companies in the Health-ton field were shut down Friday by order of the corporation commission and something like 1,000 men are out of employment.

The companies shut down are the McLean, Christian, Ardworth, Gates and Geisler. The McLean company alone had 500 men at work.

Robert McLean, president of the McLean company, ordered his wells suspended with the McLean's lines and has closed all tank buildings and Geisler. The McLean company alone had 500 men at work.

Arthur citizens are anxious to get a compromise arranged so that a field and time will not suffer from a shut down of operations. The companies which are ordered not to produce oil are those which have been out of the land more than their pro-rata under the orders of the commission that all oil must be produced.

The Texas company has offered 70 cents a barrel for storage oil while pipe line runs are selling at 45 cents a barrel and many producers are of the opinion that it will be better to secure a compromise and permit the building of steel tanks.

Recommend Chamberlain's Cough Remedy.

"Do it to-day—The Blanket Way"

If you knew you could get the market price for every animal on your place, you would feel safe—wouldn't you? If you knew that regardless of what happens you would still be paid for any losses you suffer on account of the death of your livestock, you would feel just as safe.

And that is just exactly the way we want you to feel—the way you can and will feel if you will insure your livestock in the Topeka National Livestock Insurance Company. For we will pay you for every animal that dies. Sell your fat beefers to the packers if you want to. But sell US all the dead ones, or rather, all that die before you are ready to sell. It's easy to do. Just let us protect you against loss by

"Death From Any Cause"

Our policy covers death of horses, cattle, sheep, etc., by Disease, Accident, Sunstroke, Condemnation, Fire, Lightning, Tornado—in fact, "Death From Any Cause."

And even when you have an animal or herd condemned by the State, we pay you the difference between the face of your policy and what the state is liable for.

Our policy, then, is an actual guarantee that your stock will be alive when you want to sell, or that you can market all of it within the year. Surely this protection is worth while.

This is the way we insure. This is the way we do it. And what's more, we pay while others quibble. When you buy a policy in this Company, you don't buy a law suit. Some companies have very confusing and bewildering requirements in regard to the adjustment and settlement of losses.

The only safe, sure and satisfactory way for you to place your insurance with a Company like this one that pays all losses on account of "DEATH FROM ANY CAUSE" and pays them promptly.

Losses Paid Right on the Ground

When we say "prompt" we mean it, for we live up to the exact meaning of that little but mighty word. Whenever an adjuster of this company arrives on the ground after receiving notice of loss, and has made satisfactory adjustment, he writes and pays that loss right then and there—on the ground.

What more real protection, what better protection, what safer insurance, can a man have? What is more prompt, quicker—than this pay-on-the-ground rule of the Topeka National Livestock Insurance Company.

If you will be one-half as quick in taking the protection we offer you as we are in adjusting and paying our losses, we will both be better off.

Not An Experiment

This is no wild-cat-by-night institution. We are here to stay. We know what we are doing. Our plan of insurance has been thoroughly tried out—tested in every conceivable way. And it has made good. We are doing business on a larger scale today than ever before, and the more we do the stronger we get. Have complied with every requirement laid down by the State Insurance Commissioner—and are legally chartered to do business in Oklahoma. Consequently, it wouldn't pay us to make idle claims, even if the state permitted it. We MUST pay the losses of our policy holders. And we do. At the present time we do not have a single adjusted unpaid loss on our books. SEND THE COUPON TODAY telling us how many head of livestock you own—how many cattle, horses, sheep, etc.—and their value. Upon receipt of your letter we will forward to you at once a full and complete estimate of what it will cost you to insure your livestock. You need the protection we offer. You can't afford to take all the risk. You will thank us for bringing this protection to you if you give us the chance. It is purely a matter of business. Don't overlook this opportunity.

COUGHS THAT ARE STOPPED
Careful people see that they are stopped. Dr. King's New Discovery is a remedy of tried merit. It has held its own on the market for 46 years. Youth and old age testify to its soothing and healing qualities. Pneumonia and lung troubles are often caused by delay of treatment. Dr. King's New Discovery stops those hacking coughs and relieves the gripe tendencies. Money back if it fails. 50c and \$1.00.

AT THE THEATRES.
Fascinating, Musical Comedy.
Among the principal attractions which Manager Ardrey of the Guthrie theatre has booked is "A Modern Cinderella" which will be played here on Sunday for one performance. This is a unique and fascinating musical comedy well sprinkled with witty chorus girls, founded upon the old, old story or fable of Cinderella and the crystal slipper, modernized and brought up to date by introducing characters, scenes and happenings of every day life.

The music is said to be whistleable, which means that it leaves you humming and thinking it for weeks after witnessing the performance. The look and lyrics are both funny and interesting, in fact old Broadway liked it so well that it ran for nearly a year in New York. This in itself should be sufficient proof to local patrons that in "A Modern Cinderella" they will get more than their money's worth.

The Gem.
The Gem is forging ahead with a strong line of features, the best of features of the Universal and other high class film plants. The "Broken Coin" holds strong and all audiences are pleased.

The Lyric.
Manager Steve Pollard of the Lyric believes in working only the best in filmdom. He has brought the Lyric to a high state of perfection by uniform bookings. The Diamond serial still goes strong.

The Highland.
The Highland scored with the Devil's Daughter with Veda Bara up and produced equally as good features the coming week.
